

Hospital Coordination Project – Traffic Benefits Feasibility Study

August 16, 2016

PCID Hospital Coordination Project – Scope of Services

Feasibility Study on Traffic Benefits

(Kick-off meeting Aug. 11, 2016)

- Project 1: Perimeter Center Parkway Managed Lane Interchange – Revive 285
- Project 2: Johnson Ferry Rd. Managed Access Ramp
- Project 3: Perimeter Center Pkwy Extension to Johnson Ferry Rd.

90 calendar days to produce final technical memorandum

City of Sandy Springs Input

- Staff is participating in the feasibility study as presented, along with GDOT, Brookhaven, Dunwoody and Northside Hospital.
- Staff recommends that any new access ramps, or changes to existing ramps, or any roadway infrastructure adjustments to be considered on a larger scale whether seeking project scope changes to this feasibility study and/or the City performing a larger feasibility study.
