

Johnson Ferry Road Operational Improvement

Project Description:

The project (T-0011) will construct dual roundabouts at Johnson Ferry Road and Mt. Vernon Hwy intersections, add sidewalks, and will return streets to two-way traffic operations between Roswell Road and Hunting Creek Drive

Project Benefits:

- Improve mobility and safety
- Without improvement, intersections are projected to have failing Level of Service in the future condition
- The roundabouts will reduce the number of vehicle conflicts, slow travel speeds, and provide pedestrian accommodations

Estimated TSPLOST Funding: \$26,000,000
